

***Vaccinate for Life!***

# 2<sup>nd</sup> Annual Arizona Adolescent and Adult Vaccine Symposium

**Thursday, September 27<sup>th</sup>, 2007**

## Workshop Titles & Descriptions

Room	Session 1 11:00 – 12:00 pm	Session 2 2:15 – 3:15 pm
<b><i>Boulder</i></b>	<p><b><i>“You Are the Vector: Health Care Workers and Influenza Vaccines”</i></b> Karen Lewis, MD</p>	<p><b><i>“Medicare Coverage for Influenza &amp; Pneumococcal Immunizations”</i></b> Dana Batey</p> <p>This session will include: Coding and coverage guidelines, roster billing, simplified paper billing guides, enrollment steps to becoming a medicare provider and strategies for vaccination opportunities.</p>
<b><i>Coyote</i></b>	<p><b><i>“Meeting the Challenge of Pneumococcal Disease”</i></b> Esther Paek, MD</p> <p>A look at the impact of pneumococcal disease, its prevalence, potential consequences and populations at risk. Explore the effect of immunization on morbidity, mortality and ACIP recommendation.</p>	<p><b><i>“Silencing a Silent Epidemic: Hepatitis B Among Asian/Pacific Islanders”</i></b> Doug Hirano</p> <p>This workshop will describe community-based efforts to address the hidden epidemic of chronic Hepatitis B infection among Asian/Pacific Islanders in Maricopa County. Focus areas will include the local HBV epidemiology, strategies to educate the API community and local health care providers, and current best practices in identifying chronic cases of HBV infection.</p>
<b><i>Echo Canyon</i></b>	<p><b><i>“Community Campaign-Combating Flu”</i></b> Debbie Savoini Michele Pearson</p> <p>Strategic planning for the who, what, where, how of an effective, efficient flu vaccination program.</p>	<p><b><i>“The Joy of Epidemiology”</i></b> Daniel Bronson-Lowe, PhD</p> <p>Like cooking, epidemiology incorporates quality ingredients (data, surveys, lab results), carefully crafted recipes (surveillance, outbreak response, interventions), and eye-catching presentations (graphs, tables, maps). Please join us in taking a different look at this science and the part it plays in public health.</p>

<b>Flagstone</b>	<p><b><i>Vaccine Jeopardy</i></b>  <b><i>Test Your Knowledge!</i></b>  Carole Boble  Bridget Tolo</p>	<p><b><i>Vaccine Jeopardy</i></b>  <b><i>Test Your Knowledge!</i></b>  Carole Boble  Bridget Tolo</p>
<b>Gold Dust</b>	<p><b><i>Cervical Cancer</i></b>  Jim Seaboldt, MD</p>	<p><b><i>“Before the Bell Rings”</i></b>  Jennifer Ralston-King</p> <p>Adolescent immunizations required before students enter school and the latest recommended schedules.</p>
<b>Horseshoe</b>	<p><b><i>“Enhanced Adult Immunization Service Delivery”</i></b>  Richard Bradley</p> <p>Utilize the powerful tools of the ASIIS Registry and ASIIS Web Application to facilitate timely immunization, identify patients at high-risk for disease, record serologic histories and manage vaccine inventory.</p>	<p><b><i>“Enhanced Adult Immunization Service Delivery”</i></b>  Richard Bradley</p> <p>Utilize the powerful tools of the ASIIS Registry and ASIIS Web Application to facilitate timely immunization, identify patients at high-risk for disease, record serologic histories and manage vaccine inventory.</p>
<b>Desert Sky</b>	<p><b><i>“Pregnancy and Vaccines”</i></b>  Judy Schmidt, Ed.D</p> <p>Giving vaccines during pregnancy and breastfeeding is often a source of concern and misinformation. When and why should pregnant women be vaccinated and when should they not be vaccinated? Is breast feeding a concern? The vaccines to consider or avoid before, during, and after pregnancy will be discussed in this session. Common misinformation related to rubella, measles, varicella, and influenza diseases and their vaccines will be clarified.</p>	<p><b><i>“Airport Flu Clinics”</i></b>  Jennifer Tinney</p>
